

St Andrew's church – a place for all

*Hello, you may know that we are working to repair and improve our church, St Andrew's. We are keen to include your ideas about its future - could you give me a couple of minutes of your time for that now? Just five questions. **Thank you.***

- 1. Do you think it's important to keep this church building in good condition?**

- 2. What do you think would happen if we did nothing?**

- 3. What part would you like to see the church play in this community?**

- 4. Would you support the church being used for other, non-religious, activities in addition to religious services?**

- 5. What other activities would you welcome and take part in?**

Thank you so much. I'd like to ask for your name and email address so that we can keep you up-to-date on progress. We will not pass this onto anyone else.

6. Your name

7. Your email address

And we would like to know whether you live in this Parish or not – because some of our funding applications have to show that we have included local people - we of course welcome everyone who lives or visits here (that's why we want to keep you updated)

8. Do you live in Harberton Parish?

Thank you – this really helps!

If you are completing this at home please return it to the box in the Church (on right as you enter) or by email to celia.atherton64@gmail.com
